We don't have a webex since we are only discussing the CSTAG memo. I attached that here for reference.

Thanks, Diane

Please also forward today's webex link if possible

Here are the RAOs for discussion on Monday. As I stated in the message to Jay below, these RAOs are still under development and for discussion purposes only.

Hi Jay

I am attaching our current RAOs, we have adjusted them based on our conversations with you and the CSTAG recommendations. They are still draft and require additional work, but I wanted to share them with you ahead of Monday's meeting so that we can discuss them. You had mentioned that you were writing up any additional concerns that you have after the CSTAG recommendations. Is that still a possibility?
